Product description:

HONDA HRX 476C2 VY EH LAWMOWER 2,7KW SEMOVENT WITH VARIABLE MUNCHING

The HONDA HRX 476C2 VY EH lawnmower is equipped with a HONDA GCV160 gasoline-powered engine capable of delivering a power of 2.7KW, suitable for medium and large lawns (over 250 square meters)

The HONDA HRX 476C2 VY EH lawnmower have high performance, low noise levels and feature a number of Honda-exclusive technologies, such as: Select Drive for precise control, Versamow for selective mulching and Roto-Stop to safely disengage the cutting blades.

The Lawn Mower's GCV160 4-stroke engine has an enhanced combustion process that not only improves fuel efficiency, but ensures easy starting, even after winter idle time.

The Versamow system as standard on the Mower, features seven settings, from collection to full mulching, allowing precise control over the amount of grass clippings you deem most suitable for fertilizing your lawn.

The mower comes complete with the Roto-Stop safety system that allows you to stop the blades quickly and safely, without having to turn off the engine. This is ideal if you want to empty the grass bag, remove debris or cross paths and driveways.

TECHNICAL FEATURES HONDA HRX 476C2 VY EH

Feed rate: 0-1. 4 m/s

Material of cutting deck: Polystrong

Blade brake: Roto-stop

Mulching system: Versamow variable mulching

Capacity of grass collection bag: 69 l
Noise level: 98dB(A)
