Product description:

HONDA UMK 450 LE BRUSHCUTTER

The HONDA UMK 450 LE brushcutter features a D-handle and an extra-comfortable harness. The HONDA UMK 450 LE is engineered to be practical, powerful and reliable, ensuring consistent power and torque even under demanding conditions. The HONDA UMK 450 LE brushcutter can perform any task expected — no area of dense undergrowth will remain unreachable. With the robust and dependable 4-stroke garden brushcutter, you can venture where other machines cannot. Thanks to the supplied comfortable harness and an adjustable shaft adapted to the operator's build, work is easy from the start. Reduced fatigue — achieved by a low-vibration clutch and the renowned quiet 4-stroke engine — makes these brushcutters particularly pleasant to use.

A quick overview of Honda products

From the outset, the HONDA UMK 450 LE proves extremely easy to handle. It can face any type of job, no matter how long or demanding, and with the powerful GX50 4-stroke engine it is ready for any challenge.

Handlebar grip

These brushcutters come standard with a comfortable harness, a nylon tap-and-go head, and a heavy-duty three-tooth blade. The adjustable handlebar provides a better and safer grip while cutting unwanted vegetation.

Loop handle

Brushcutters with a loop handle come standard with a comfortable harness, a nylon tap-and-go head, and a heavy-duty 3-tooth blade. They are perfectly balanced and ensure precise control during pruning or edging.

Curved-shaft brushcutter

This model is equipped with a nylon tap-and-go head. Its very light weight and balanced proportions make it easy to control during operation, allowing you to reach even the most difficult spots.

If you are looking for another type of brushcutter, please consult the full catalog.
