Product description:

GENMAC Click RG6000YO SINGLE-PHASE GENERATOR 6,1KVA

The generator Genmac Click RG6000YO single-phase is equipped with a Yanmar Diesel powered engine capable of delivering 6,1KVA with capacitor voltage regulator (AVR optional).

High quality Professional Diesel Generators, **Genmac Click** series with power of **6,1kVA**, are equipped with **Yanmar oversized engine** with air-cooled to 3000 RPM.

Professional Genmac Click diesel generators, are highly reliable machines, built with **quality components** to be **used in professional field**, where reliability is fundamental.

This feature is essential to ensure high reliability of the generator, reduce the effort and increase **the life span by lowering the noise level**.

All Yanmar motors **are built using the** best materials, the **most innovative** technics **and the most advanced quality control methods**.

Each engine is carefully tested in order to prove its perfect operation before delivery.

AVR Voltage Regulator

All models in the Genmac Combipro series are available with optional AVR voltage regulator. The AVR is a device that allows to **maintain the output more constant and less load-dependent**. Thanks to this card you have fewer drops or current peaks and this makes it safer to use the various devices connected, improving their performance and durability.

The model equipped with AVR card is highly recommended, as it guarantees a significant improvement in the stability of the output; this feature makes the generators particularly suitable with common use machines with reactive load such as refrigerators, freezers, air conditioners and garden machines. Thanks to the AVR you can enjoy greater stability and thus increase the life of your devices.

TECHNICAL FEATURES OF GENERATOR GENMAC CLICK RG6000KO 6,1KVA

Voltage regulator : capacitor (AVR Optional)

Power supply: Diesel

Starting: Manual

Phase type: Single phase

Continuous power: 5,0KVA / 4,5KW

Maximum power: 6.1KVA / 5.5KW

Motor: Yanmar L100

Socket panel: 2 x schuko 16A 230V

Voltage: 230V

Frequency: 50 Hz

3000 rpm

Tank: 5.5 Lt.

Autonomy @ 75%: 4,2 h fixed rpm

Length (mm): 740

Width (mm): 540

Height (mm): 600

Dry weight (Kg): 86

If you are looking for another product then you can see on our catalog other generator.

Images and technical data are not binding.

Product features:

Phase: Single phase

Maximum power single phase (KW): 5.5

Continuous power single phase (KW): 4.5

Maximum power single phase (KVA): 6.1

Continuous power single phase (KVA): 5

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230

Engine: Yanmar L100N

Engine rpm (rpm): 3000

Starting system: Manual

Cooling: Air

Poles: 2

Fuel tank capacity (L): 5.5

Running time (h): 4.2

Length (mm):

Shop name

Width (mm): 540

Height (mm): 600

Dry weight (Kg): 86

ATS Switch device : No

Voltage regulator: AVR (optional)

Engine manufacturer: Yanmar
