GENMAC DAILY G7000KS THREE-PHASE GENERATOR 7,0KVA

The Genmac Daily G7000KS three-phase generator is equipped with a diesel-powered Kohler engine capable of delivering 7.0KVA with optional capacitor voltage regulator (AVR).

High quality professional silenced three-phase diesel power generator, Genmac Daily G7000KS with 7.0KVA power output. The Genmac Daily G7000KS diesel power generator is equipped with an oversized Kohler air-cooled engine.

Genmac Daily G7000KS professional diesel generators, are highly reliable machines, built with quality components for use in the professional field, where reliability is paramount.

This feature is essential to ensure high reliability of the Genmac Daily G7000KS, reduces the strain on it and **increases its lifespan by lowering the noise level.**

All Kohler **engines** are built using the **best materials**, the **most innovative techniques** and the **most advanced quality control methods.**

Each engine is thoroughly tested to ensure that it is in perfect working order before delivery. Kohler service is always available to assist you if you need it.

The 7,0KVA Genmac Daily G7000KS is equipped with a capacitor voltage regulator, on request it can be supplied with AVR regulator.

Voltage Regulator AVR

All models in the Genmac series are available with an optional AVR voltage regulator. The AVR is a device that allows you to **keep the output more constant and less dependent on the load.** Thanks to this card there are fewer drops or spikes in current and this makes it safer to use the various devices connected, improving performance and durability.

The model equipped with AVR card is highly recommended, as it ensures a significant

improvement in the stability of the output; this feature makes the generators particularly suitable with commonly used machines with reactive load such as refrigerators, freezers, air conditioners and garden machines. Thanks to the AVR you will enjoy greater stability and therefore an increase in the life of your devices.
