Product description:

MOSCATELLI MOOVE 100W SOLAR PANEL

MOSCATELLI MOOVE 100W is a solar panel designed for use in vehicles and campers, particularly efficient with monocrystalline cells.

With a maximum power of 100W, the new MOSCATELLI MOOVE module proposed in the dimensions 1230x541x55mm solves many drawbacks that usually afflict fixed-mount solar panels installed on recreational vehicles, in particular the problem of encumbrance and the problem, very important on a means of transport, of weight. With a weight contained in only 9 Kg the MOSCATELLI MOOVE 100W module is extremely light compared to a similar traditional solar panel that, mounted on the roof of the camper, generally weighs around 15 Kg.

MOSCATELLI MOOVE 100W also, compared to traditional models is a module made of monocrystalline silicon solar cells, which makes them more efficient, compact and durable than polycrystalline models.

The high mechanical resistance allows the MOSCATELLI MOOVE 100W module not to be affected by jolts and vibrations. The supply is completed by the fixing kit for a practical use. The panel MOSCATELLI MOOVE is equipped with an exclusive design that allows the installation without fear of wind resistance.

Thanks to this set of peculiarities, the new MOSCATELLI MOOVE photovoltaic modules guarantee a long life in full efficiency. the MOSCATELLI photovoltaic panel is complete with a 6 meter cable and supports.
