Product description:

HONDA TENDER T24 IE3

Honda Inflatable Dinghy T24 IE3 is an V-keel dinghy that can be equipped with a Honda outboard engine; this dinghy can be combined with an outboard for a maximum power of 6 hp.

The HONDA TENDER T24 IE3 is a portable, lightweight dinghy and is perfect for coastal exploration, fishing or simply offshore excursions. With a new bow roller design, a high quality durable PVC body and larger diameter tubing for smoother sailing, the new Honwave dinghy range is perfect for trips to the lake or sea.

With a Honda outboard, it will be even easier to go to sea with the T24 IE3. This is because the dinghy's larger diameter tubulars ensure excellent buoyancy and stability. Honda quality in both engines and dinghies always makes the difference in boating.

Honda offers several types of inflatable boats and tenders and each of them has a different length and is suitable for different outboards and number of passengers. For example, the HONDA TENDER T24 IE3 dinghy has an overall length of 240 cm and can carry up to 3 adults. HONDA TENDER T24 IE3 with a V-shaped inflatable hull offers you performance and agility. Vibration-damping decks help soften the ride and the deep-V hull ensures the best possible stability at any speed.

HONDA TENDER T24 IE3 are designed to withstand whatever they may encounter on the open sea. This applies to all types of weather and sea, in fact even the HONDA TENDER T24 IE3 boat is protected against everything. The HONDA TENDER T24 IE3 is made of high-quality European PVC - simply the best available - which makes this dinghy not only durable but also lightweight.

The KIT HONDA TENDER T24 IE3 INCLUDES:

- Carry bag
- Puncture repair kit
- Pressure gauge
- Oars
- Foot pump

- Boat bench
