Product description:

PRAMAC NETWORK/GROUP SWITCHBOARD LTS 63A

PRAMAC LTS 63A is a mains/generator switchboard supplied separately in a special metal box (prepared for mounting and application, wall or floor).

The PRAMAC LTS 63A switchboard includes two electrically and mechanically interlocked contactors (for mains or generator power transfer), emergency stop button, power terminal blocks (mains, generator and PRAMAC use) and auxiliary terminal block for easy connection to the ACP panel (mounted on the generator).

Are you looking for a control panel with different features? Here you can find the entire range of PRAMAC or other specialized brands.
