## Product description:

GENERATOR SILENCED 270KVA SINGLE-PHASE/THREE-PHASE AUTOMATIC CONTROL PANEL

Generator Three-phase of 275 KVA with Baudouin engine 6M16G275-5 diesel powered and with tank with a maximum capacity of 265 l.

equipped with **automatic starting** with 12 V battery, the generator is equipped with automatic control panel with **COMAP IL4 AMF9** control unit, which allows view all the electrical parameters of the engine and generator, functions, status of the generator set, manage the entire group and view, if any, system errors or alarms.

This group is equipped with a soundproofed cabin, made of 20/10 thick carbon steel, folded and electro-welded, with protection class IP23 and which can be opened in two sections. This booth allows an incredible reduction of noise pollution, up to obtaining a sound pressure of only 70 dB(A) recorded at a distance of 7 meters. The generator set guarantees efficient and silent operation thanks to the Baudouin 6M16G275-5 engine, which allows it to deliver a maximum power of 275KVA.

ATS AUTOMATIC START PANEL (Optional)

The generator set is fitted for connection to the ATS automatic starter panel. Thanks to which you will no longer have to worry about blackouts because if the electricity goes off, this panel is able to automatically start the generator and will allow you to continue your business without losing your work data.
