Product description:

VITRIFRIGO C39i FRIDGE-FREEZER

The VITRIFRIGO C39i Fridge-Freezer, the new internal refrigeration unit, represents an evolution in the world of fridge-freezers, characterized by an innovative Airlock closure system designed to offer advanced functionality and ease of use.

The Airlock system features 4 innovative solutions that set it apart:

1. Positive closure to prevent accidental openings.
2. Unique fixing profile, available for both the total recess (inside) and partial recess (outside) versions.
3. Quick reversibility thanks to careful component design.
4. Integrated "vent position" system to keep the slightly open and prevent the formation of unpleasant odors during periods of inactivity.

The VITRIFRIGO C39i AIRLOCK series stands out for its essential bicolor design, with the Light Grey version offering a luminous pearl gray tone, while the Black version has a more pronounced chromatic contrast. Both variants feature a matte finish on the panel.

With a total capacity of 39 liters and a 3.6-liter freezer compartment, the VITRIFRIGO C39i is a versatile product suitable for various needs.

With a nominal consumption of only 40W and power supply at 12/24Vdc (with the option of a dual-power unit 12/24Vdc - 100-240Vac 50/60Hz), it offers an excellent balance between energy efficiency and performance.

The Airlock system is included as standard with the possibility of adding the optional profile for greater customisation, thus ensuring perfect integration with the VITRIFRIGO C39i. Furthermore, with the new profiles, customisation of the panel is made even easier, offering a solution tailored to the customer's needs.

Also available in the "fridge only" version upon request, the C39i from the AIRLOCK series presents itself as a complete and versatile solution for storing fresh and frozen foods with style and convenience, confirming VITRIFRIGO's commitment to innovation and quality.

Technical Specifications VITRIFRIGO C39i FRIDGE-FREEZER:

Total capacity liters: 39

Freezer capacity liters: 3.6

Net weight: 17 Kg

Power supply: 12/24Vdc (also available with dual-power unit 12/24Vdc - 100-240Vac 50/60Hz)

Nominal consumption: 40W

Total width: 390 mm

Total height: 547 mm

Total depth: 415 mm

Panel color: black / grey

Also available in "fridge only" version (without freezer compartment): yes

Reversible door: yes

Product features:

Input power (W): 12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)

Length (mm): 415

Width (mm): 390

Height (mm): 547

Dry weight (Kg): 17

Product type: Compressor refrigerator

Colour: black / grey

Capacity of the refrigerator (L): 39
Freezer (L): 3.9
Nominal consumption: 40W
Reversible door: Yes
