Product description:

VITRIFRIGO C95L FRIDGE-FREEZER

The VITRIFRIGO C95L is an external refrigerating unit equipped with the Airlock closure system, designed to offer innovative functionality and ease of use. The Airlock system provides positive door closure to prevent accidental openings and a unique fastening profile for both full and partial flush-mount versions. The door's reversibility is quick due to the precise design of the system. Additionally, a "vent position" system is integrated to leave the door slightly ajar, preventing the formation of unpleasant odors.

The VITRIFRIGO C95L series of refrigerators/freezers and freezers is characterized by an elegant and minimalist bicolor design, available in Light Grey and Black tones, both with a matte finish on the door panel. With a total capacity of 95 liters and a freezer capacity of 12.8 liters, it is a versatile option for food preservation needs.

This product, the VITRIFRIGO C95L, has a nominal power consumption of 45W and can be powered by 12/24Vdc, with the option of a dual power supply unit 12/24Vdc - 100-240Vac 50/60Hz. With dimensions of 485mm width, 792mm height, and 471mm depth, it offers a compact and efficient solution for available space. The door is reversible for greater installation flexibility.

Furthermore, the VITRIFRIGO C95L is equipped with several additional features, including the ability to customize the panel with new profiles for a tailored aesthetic, a high-intensity LED lighting system, and the D power option for greater power supply versatility. It is also available in a "fridge-only" version upon request, ideal for those who do not require a freezer compartment.

Technical Specifications VITRIFRIGO C95L:

Total capacity litres: 95

Freezer capacity litres: 12.8

Net weight: 24 Kg

Power supply: 12/24Vdc (also available with bivalent 12/24Vdc - 100-240Vac 50/60Hz)

Nominal consumption: 45W

Total width: 485 mm.

Total height: 792 mm.

Total depth: 471 mm.

Panel colour: black / grey

Also available in "fridge only" version (without freezer compartment): yes (C95L version only)

Reversible door: yes

Product features:

Input power (W): 12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)

Length (mm): 471

Width (mm): 485

Height (mm): 792

Dry weight (Kg): 24

Product type: Compressor refrigerator

Colour: black / grey

Capacity of the refrigerator (L): 95

Freezer (L): 12.8

Reversible door: Yes
