Product description:

VITRIFRIGO C130LA WITH COLD-STORAGE PLATE

The VITRIFRIGO C130LA, part of the AIRLOCK series, is a refrigerator with a freezer designed to offer advanced innovation and convenience.

Equipped with the Airlock closing system, it is designed to prevent accidental openings while ensuring a secure door seal.

This system offers a range of innovative solutions, including positive door closure, a unique fixing profile for both full and partial recessed versions, and quick door reversibility.

The integration of the "vent position" system in the VITRIFRIGO C130LA allows the door to be kept slightly ajar,

preventing the formation of unpleasant mold odors during periods of inactivity.

This fridge-freezer is characterized by its essential and elegant aesthetics, available in two color variants: light gray and black, both with a matte finish that adds a touch of sophistication.

With a total capacity of 130 liters and a freezer capacity of 17.1 liters, the VITRIFRIGO C130LA is lightweight, weighing 27 kg,

and can be powered by both 12/24Vdc and a bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz,

offering flexibility in power options. Its compact dimensions, with a width of 525 mm, a height of 767 mm,

and a depth of 565 mm, make it suitable for a variety of spaces.

This product, the VITRIFRIGO C130LA, is available in black and gray colors, also offering the option to order a "fridge only" version without the freezer compartment. The door is reversible,

further increasing installation flexibility. The Airlock system is included as standard equipment, but the optional profile can be added for further customization. In addition to its basic features, the VITRIFRIGO C130LA offers additional functionality such as Easy Custom for easier panel customization and a new high-intensity LED lighting system. Additionally,

the optional D power system provides greater flexibility in power supply.

Technical Specifications VITRIFRIGO C130LA:

Total capacity litres: 130

Freezer capacity litres: 17.1

Net weight: 27 Kg

Power supply: 12/24Vdc (also available with bivalent 12/24Vdc - 100-240Vac 50/60Hz)

Nominal consumption: 45W

Total width: 525 mm.

Total height: 767 mm.

Total depth: 565 mm.

Panel colour: black / grey

Also available in "fridge only" version (without freezer compartment): yes (C130L version only)

Reversible door: yes
