## **Product description:**

### VITRIFRIGO BRK35P DRAWER FRIDGE-FREEZER

The VITRIFRIGO BRK35P is a high-quality portable and built-in fridge-freezer designed to meet the specific needs of special installations, such as those on yachts and boats. The VITRIFRIGO BRK35P series offers a versatile and reliable solution for keeping food fresh during sea voyages. Built with high-strength materials like loaded polyethylene, it ensures robustness and durability even in challenging marine conditions.

With a total capacity of 35 liters and a net weight of 16 kg, the VITRIFRIGO BRK35P can handle a wide range of food products, ensuring optimal preservation in both the fridge and freezer compartments.

Thanks to its flexible 12/24Vdc power supply, it is suitable for use on boats and recreational vehicles, offering the ability to keep food fresh during long sea or road trips.

One of the key features of the VITRIFRIGO BRK35P is its new Push-turn locking system, which ensures a tight and secure seal in any condition. This innovative system ensures that food remains fresh and protected from moisture and external odors, ensuring optimal preservation.

The VITRIFRIGO BRK35P is equipped with a dual-power unit that allows power supply from both 12/24Vdc and 100-240Vac 50/60Hz, offering greater flexibility and adaptability to different onboard power situations.

This feature makes it ideal for use on boats, campers, and other recreational vehicles that may have different power sources available.

With its elegant and functional design, the VITRIFRIGO BRK35P seamlessly integrates into any interior environment, providing a touch of style and sophistication. Thanks to its versatility, robustness, and reliability, it is the ideal choice for those seeking a high-quality portable and built-in fridge-freezer

for their sea and road adventures. With the VITRIFRIGO BRK35P, you can enjoy fresh and delicious food wherever your journey takes you.
