Product description:

VITRIFRIGO BRK35PX DRAWER FRIDGE-FREEZER

The VITRIFRIGO BRK35PX is a portable and built-in fridge-freezer ideal for a wide range of applications, including yachts, boats, and special installations. The VITRIFRIGO BRK35PX series has been designed to offer flexibility and reliability in environments where space is limited and energy efficiency is essential.

With a total capacity of 35 liters, the VITRIFRIGO BRK35PX provides ample space to store food and beverages while ensuring great portability thanks to its compact dimensions and lightweight of only 16.7 kg. This fridge-freezer is powered by 12/24Vdc, but it is also available with a dual power supply option 12/24Vdc - 100-240Vac 50/60Hz for increased flexibility of use.

The VITRIFRIGO BRK35PX features a robust structure made of high-strength loaded polyethylene, ensuring durability and impact resistance over time. The door and profile are made of stainless steel, giving the product an elegant aesthetic and greater corrosion resistance.

One of the distinctive features of the BRK35PX is its new Push-turn locking system, designed to ensure a secure and airtight closure, keeping food fresh inside the refrigerator even in adverse environmental conditions.

This fridge-freezer is designed to fit into dedicated spaces, offering the possibility to create custom refrigerated spaces. Equipped with a practical removable container, the VITRIFRIGO BRK35PX maximizes the use of internal space, allowing for efficient organization and storage of food.

With overall dimensions of 506 mm width, 305 mm height, and 723 mm depth,

the VITRIFRIGO BRK35PX easily adapts to a variety of configurations and layouts. Thanks to its versatility, reliability, and elegant design, the VITRIFRIGO BRK35PX is the ideal choice for those seeking a high-quality fridge-freezer for their portable or built-in refrigeration needs.
