## **Product description:**

HONDA HSS1380AETD tracked snow blower 8.7kW

HONDA HSS1380AETD tracked snow blower is a snowplow equipped with tracks that allow for greater traction, capable of delivering 8.7KW of power.

For beginners, we have the world's most reliable motors that start and run smoothly even in subzero temperatures. Then there are the many unique Honda HSS1380AETD innovations built into the machines, from the automatic cutter stop to the smallest safety bolt. Once it's all assembled, Honda 8.7KW gives you the best snowplow available anywhere in the world.

HONDA HSS1380AETD tracked snow blower offer increased traction in most snow conditions and make this snowplow ideal for rough terrain and gravel paths. They don't slip and slide, even on the steepest slopes, you're in full control.

Throwing snow a distance of 17 feet takes a lot of effort. To do the same job, it would take many people equipped with shovels. However, the Honda HSS1380AETD tracked snow blower GX390 4-stroke engine will get the job done in no time. This engine is as reliable as it is powerful, is easy to start, and is designed to produce low noise, vibration, and emissions. Thus, these snowplow are the quietest and most comfortable to use. And because they consume very little fuel, they're less expensive than a crew of workers equipped with shovels.
