Product description:

BM2 STX 22016 PLUS HIGH PRESSURE WASHER 220 BAR

The BM2 STX 22016 PLUS High Pressure Washer, with a maximum pressure of 220 bar, epitomizes innovation in the high-pressure cleaning equipment sector. Equipped with prestigious bi-axial pumps with ceramic pistons and brass head, it provides a constant and powerful flow to effectively tackle all types of dirt. The BM2 STX 22016 PLUS is equipped with a 1450 rpm motor for consistent and reliable power. Its AISI 430 stainless steel cover shields the entire structure from corrosion and atmospheric elements, ensuring long-lasting durability.

The BM2 STX 22016 PLUS 220 bar is designed with an advanced motor/pump coupling protection system, including a special lubricant containment system for safe operation in any situation. The presence of pressure regulation valves and the ability to dispense high-pressure detergent ensure impeccable results on any surface, while the integrated boiler with over 89% efficiency guarantees effective removal of even the most stubborn dirt.

Thanks to pre-ventilation and leak control, the BM2 STX 22016 PLUS 220 bar ensures safe and efficient use, minimizing energy and water consumption. Equipped with numerous advanced features, such as flame control with LED indication and LED indication for diesel shortage with boiler shutdown, the BM2 STX 22016 PLUS offers excellent performance in a compact and versatile design.

The ergonomic design, with front bumper-handle and free-wheeling, pivoting wheels with brakes, makes the BM2 STX 22016 PLUS easy to maneuver in any environment. Additionally, the motor's thermal protection

ensures safe and reliable operation even in extreme conditions.

In conclusion, the BM2 STX 22016 PLUS High Pressure Washer 220 bar is the ideal choice for professionals and enthusiasts in the sector, thanks to its high performance, reliability, and ease of use. With a maximum pressure of 220 bar and a maximum flow rate of 960 Lt./h, it is ready to tackle any cleaning challenge with ease and precision.

Technical Features BM2 STX 22016 PLUS:

Phase type: Three-phase
Supply voltage: 400 V
Frequency: 50 Hz
Maximum pressure: 220 bar - 22 Mpa - 3190 psi
Maximum flow rate: 960 Lt./h
Pump: IP E3
Shutoff System: ACDS
Pump rotation: 1450 rpm
Maximum power consumption: 8.4 KW
Power supply: 400 V - 3ph - 50 Hz
Maximum temperature: 140 °C
Tank capacity: 35 lt
Detergent tank capacity: 3 lt
Length: 956 mm.
Width: 610 mm.
Height: 940 mm.
Weight: 160 kg.

Product features:

Phase: Three phase
Fuel: Diesel
Frequency (Hz): 50

Voltage (V): 400
Pump type: IP E3
Maximum output capacity (Lt/min): 960
Tank capacity (L): 35
Transportability: Wheels and handles
Length (mm): 956
Width (mm): 610
Height (mm): 940
Dry weight (Kg): 160
Feed Type: 400V - 3ph - 50Hz
maximum water temperature (°C): 140
Maximum input power (KW): 8.4
Pump rotation (rpm): 1450
Maximum pressure (bar-MPa-psi): 220 - 22 - 3190
Stop system: ACDS
Detergent tank: 3
