

# Hyundai 65157 Current Generator Silenced 3.5 Kw Stage V

**Product price:**

**708,00 € tax excluded**

## **Product description:**

Hyundai 65157 Silent Power Generator 3.5 Kw Stage V

Hyundai 65157 Power Generator: Quiet for your current needs

When Hyundai the power goes out or adventure calls, the Hyundai 65157 current Generator stands like a beacon in the night, ready to illuminate your energy needs with 3.5 kW. This rugged, portable companion effortlessly powers a wide range of devices, from power-hungry power tools to life-saving appliances, ensuring the flow of even during outages or outdoor getaways.

Hyundai With a beating heart of 3.0 kW nominal power, the Hyundai 65157 current Generator ensures a steady and reliable flow of energy, powering your devices non-stop, whether at home, work or leisure. The maximum output of 3.5 kW guarantees the ability to cope with even peaks in consumption or start electrically powered devices, making it suitable for even the most demanding users.

Hyundai's electric start eliminates the physical effort required by manual starting, making the Hyundai 65157 current Generator easy and convenient to use even for less experienced users.

Compatibility with the standard 230 V / 50 Hz voltage and frequency makes it a perfect companion for most homes and construction sites in Europe, while the two 16A sockets offer the flexibility of two devices simultaneously, with a maximum current of 16A per socket.

But the Hyundai 65157 current Generator is not just limited to powering large appliances. The 12 V output makes it perfect for recharging batteries, powering low-voltage devices or giving a life-saving jolt to those essential gadgets when power is scarce.

With a 7.5 litre fuel tank, the Hyundai 65157 current Generator offers a working range of about 4.1 hours at rated load, allowing you to enjoy without worrying about frequent recharging.

A distinctive strength of the Hyundai 65157 current Generator is its quiet operation. With a noise level of only 96 dBA at 7 metres, it is one of the quietest generators in its class, making it ideal for use in noise-sensitive environments such as campsites, gardens or night-time construction sites.

Hyundai's integrated inverter technology ensures a clean and stable sine wave, perfect for powering sensitive electronic devices such as computers, smartphones and tablets without the risk of damaging them.

Hyundai by an efficient 149.5 cc and 5.6 HP petrol engine, the Hyundai 65157 current Generator boasts a sturdy and compact design, with dimensions of 635x360x530 mm, making it easy to transport and store, fitting perfectly into a variety of needs. In addition, its compliance with the STAGE V standard for petrol engine emissions reduces its environmental impact, making it a conscious choice for those concerned about environmental sustainability.

#### **Technical specifications *Hyundai:***

Rated power (MF): 3.0 kW

Maximum power (MF): 3.5 kW

Starting: Electric

Voltage - Frequency: 230V/50Hz

Sockets: 2x16A

Fuel tank: 7.5 L

Autonomy at 100% load: 4.1 h

Noise level at 7 m: 96 dBa

12V output: Yes

Voltage regulation type: INVERTER

Power: 5.6 HP

Displacement: 149.5 cc

Engine speed: 3600 RPM

Oil capacity: 900 ml

Weight: 37.5 Kg

Product dimensions: 635x360x530 mm

#### **Product features:**

Phase: Single phase

Maximum power single phase (KW): 3.5

Frequency (Hz): 50

Voltage (V): 230

Engine rpm (rpm): 2400 - 3600

Starting system: Electric

Engine capacity (cm<sup>3</sup>): 149.5

Oil capacity (L): 900 ml

Tank capacity (L): 7.5

Product dimensions (mm): 635 x 360 x 530

Running time (h): 4.1

Voltage regulator: Inverter

Weight (Kg): 37.5
