Product description:

Autoclima Air Conditioner Modula RT Plus Rooftop Unit

Autoclima Air conditioner Modula RT plus roof top unit the autonomous air conditioner for small and medium sized cabins

Autoclima A/C Modula RT plus roof top unit is a complete, self-contained air conditioner designed for the comfort of small to medium sized cabins in various types of vehicles.

Main features Autoclima Modula RT plus roof unit:

Power supply: 12V/24V, compatible with most vehicles.

Cooling capacity: 3KW, ideal for air conditioning small cabins.

Electric absorption: 80A at 12V, 40A at 24V, low energy consumption.

Autonomous operation: does not require a compressor driven by the vehicle's heat engine.

Easy installation: only requires electrical connection.

Versions available: cooling only or with integrated electric heating.

Air diffuser comes with controls, which can be positioned on the diffuser or at a remote location.

Refrigerant: R134a, environmentally friendly and safe.

Weight: 30Kg, light and compact.

Autoclima Modula RT plus rooftop unit offers a range of benefits:

Customised comfort: regulates temperature and ventilation to create an ideal environment.

Energy efficiency: reduced consumption for greater savings.

Reliability and durability: high quality components for long-lasting operation.

Technical Specifications Autoclima Modula RT plus Rooftop unit:

Supply voltage: 12V dc - 24V dc

Cooling Power: 3.5 KW

Electric absorption: (in cooling mode) 100 A @ 12V - 50 A @ 24V

External working temperature (max): 43 C

Air flow rate (Static pressure: 0 Pa): 550 m³/h

Refrigerant: R134a

Refrigerant quantity: 600 g

Weight: 28Kg

Height: 199 mm

Length: 651 mm
