Product description:

FENZI G7PKC USED OIL COLLECTION TANK 260LT

The FENZI G9P Used Oil Collection Tank is an ideal solution for the safe containment and management of waste oils. It has a capacity of 260LT. The FENZI G9P is designed to ensure maximum safety and reliability.

Design and Construction:

The FENZI G9P is made with an innovative double-chamber system, which provides an additional level of protection in case of breakage or wear of the containment tank. This advanced system ensures that, in the event of damage, the product is not dispersed into the environment, thus maintaining safety and sustainability.

Capacity and Dimensions:

The 260LT model of the FENZI G9P Used Oil Collection Tank has the following specifications:

Capacity: 260 liters

Dimensions: 810 mm in diameter x 1180 mm in height

Empty weight: 29 Kg

Material and Durability:

Made of polyethylene, the FENZI G9P Tank guarantees superior mechanical and chemical resistance.

This material makes the tanks not only robust but also suitable for outdoor installation and on any type of terrain. Additionally, the containers are 100% recyclable, with an external containment basin and an internal basin, thus contributing to environmental sustainability.

Technical Features:

The FENZI G9P Used Oil Collection Tank is equipped with:

Hermetic lid to prevent leaks and contamination

Hermetic manhole to facilitate safe filling and emptying

Level indicator to easily monitor the amount of oil contained

Removable filter drainer, compliant with D.M. 392/96 regulations, for simple and quick maintenance

Accessories on Request:

To further enhance functionality, a ground support plate for containing small leaks is available on request.

This additional accessory increases operational safety and prevents potential soil contamination.

Usage and Applications:

The FENZI G9P Used Oil Collection Tank is primarily intended for the containment of waste oils, making it ideal for mechanical workshops, industries, and other sectors that require efficient management

of oily waste. The 260LT capacity is particularly suitable for environments with limited space but a need for safe and compliant storage.

In summary, the FENZI G9P Used Oil Collection Tank is an excellent solution for those seeking a reliable, safe, and environmentally friendly container. With a capacity of 260LT, this container offers

a unique combination of robustness, functionality, and sustainability, making it an ideal choice for a wide range of applications.
