Product description:

FENZI G12 TANK OUTDOOR DISPENSER 1000LT

The FENZI G12 TANK is a horizontal outdoor dispensing specifically designed for the storage and distribution of AdBlue. The FENZI G12 TANK Outdoor Dispenser represents an ideal solution for those who need a reliable and durable system to manage AdBlue, thanks to its high-density linear polyethylene construction which offers exceptional mechanical, chemical, and UV resistance.

Features of the FENZI G12:

The FENZI G12 TANK Outdoor Dispenser is monolithic, ensuring a robust, joint-free structure, ideal for preventing leaks and guaranteeing maximum safety. Available in the blue version, the FENZI G12 TANK has a capacity of 1,000 liters, making it perfect for various storage needs.

Material: High-density linear polyethylene

Capacity: 1,000 liters

Color: Blue

Resistance: Mechanical, chemical, and UV

Components of the FENZI G12:

Manhole with screw-on closure cap: Facilitates access for maintenance and filling.

1" vent valve: Ensures adequate ventilation during filling and dispensing.

2" filling connection: Allows for quick and safe filling of the tank.

1" suction pipe: Designed for efficient liquid extraction.

Dispensing Cabinet

The FENZI G12 TANK is equipped with a dispensing cabinet for AdBlue, composed of the following elements:

Metal cabinet with key lock: Ensures the security of the dispensing system.

Self-priming electric diaphragm pump, 230 V – 50 Hz, 40 L/min flow rate: Provides a constant and reliable flow of AdBlue.

Digital turbine flow meter: Allows precise monitoring of the amount of liquid distributed.

EPDM distribution hose, 3/4" section, 4 m length: Ensures flexibility and chemical resistance.

Automatic distribution nozzle: Facilitates refueling with automatic flow interruption to prevent spills and wastage.

The FENZI G12 Outdoor offers numerous advantages thanks to its advanced features.

Its robust and durable construction guarantees a long lifespan even in harsh environmental conditions.

The inclusion of a complete dispensing system makes the tank an excellent choice for those who need a practical and safe solution for managing AdBlue.

The FENZI TANK Outdoor horizontal external dispensing tank is ideal for a wide range of applications, including industrial sites, fuel depots, and transport companies that require AdBlue for their diesel vehicles. The 1,000-liter capacity and efficient dispensing system ensure that the necessary AdBlue is always available for the proper functioning of diesel engines.

The FENZI G12 TANK Outdoor is a complete and high-quality solution for the storage and dispensing of AdBlue. The combination of a robust and durable tank with an advanced dispensing system makes the FENZI G12 an indispensable product for anyone needing to manage AdBlue safely and efficiently. Choosing the FENZI G12 TANK Outdoor Dispenser is an investment in a product designed to last over time and provide optimal performance in any condition.
