Product description:

FENZI G12 TANK OUTDOOR DISPENSER 1500LT

The FENZI G12 TANK is a outdoor dispenser specifically designed for the storage and distribution of AdBlue.

The FENZI G12 represents an ideal solution for those needing a reliable and durable system to manage AdBlue, thanks to its construction in high-density linear polyethylene that provides exceptional mechanical, chemical, and UV resistance.

Features of the FENZI G12 TANK:

The tank of the FENZI G12 is monolithic, ensuring a robust and joint-free structure, ideal for preventing leaks and guaranteeing maximum safety. Available in the blue version, the FENZI G12 TANK has a capacity of 1.500 liters, making it perfect for various storage needs.

Material: High-density linear polyethylene

Capacity: 1.500 liters

Color: Blue

Resistance: Mechanical, chemical, and UV

Components of the FENZI G12:

Manhole with screw-on closure cap: Facilitates access for maintenance and filling.

1" vent valve: Ensures adequate ventilation during filling and dispensing.

2" filling connection: Allows for quick and safe filling of the tank.

1" suction pipe: Designed for efficient liquid extraction.

Dispensing Cabinet:

The FENZI G12 TANK is equipped with a dispensing cabinet for AdBlue, composed of the following elements:

Metal cabinet with key lock: Ensures the security of the dispensing system.

Self-priming electric diaphragm pump, 230 V – 50 Hz, 40 L/min flow rate: Provides a constant and reliable flow of AdBlue.

Digital turbine flow meter: Allows precise monitoring of the amount of liquid distributed.

EPDM distribution hose, 3/4” section, 4 m length: Ensures flexibility and chemical resistance.

Automatic distribution nozzle: Facilitates refueling with automatic flow interruption to prevent spills and wastage.

The FENZI G12 TANK Outdoor Dispenser presents numerous advantages thanks to its advanced features.

Its solid and durable construction ensures a long lifespan even in harsh environmental conditions. The integration of a complete dispensing system makes the tank an excellent choice for those seeking a practical and safe solution for managing AdBlue.

The FENZI G12 TANK Outdoor Dispenser is perfect for a wide range of applications, including industrial sites, fuel depots, and transport companies that need AdBlue for their diesel vehicles. With a capacity of 1500 liters and an efficient dispensing system, it always guarantees the availability of the necessary AdBlue for the proper functioning of diesel engines.

The FENZI G12 TANK Outdoor Dispenser is a complete and high-quality solution for the storage and distribution of AdBlue. The combination of a solid and durable tank with an advanced dispensing system makes the FENZI an essential product for anyone needing to manage AdBlue safely and efficiently. By choosing the FENZI G12 TANK, you are opting for a product designed to last over time and provide optimal performance in any condition.
