Product description:

FENZI G10 STORAGE TANK WITH GRILLE 225LT

The FENZI G10 Storage Tank with Grille 225LT represents the ideal solution for the containment and
safe storage of contaminating liquids. Made of carbon steel with adequate thickness, it is available
in both externally painted and zinc-coated versions to ensure durability and resistance over time.
The galvanized grating ensures a safe and non-slip surface.

Designed with dimensions specifically calculated to maximize the price/practicality ratio,
the FENZI G10 Storage Tank with Grille 225LT maintains a low profile (350 mm in height) to allow
easy access to stored contents, without compromising its 225 liter containment capacity.

Use

The FENZI Storage Tank with Grille is versatile and suitable for various purposes. Commonly
used for storing new oil drums, it is also utilized for cleaning operations involving parts contaminated
by pollutant liquids. This versatility makes it indispensable in industrial environments where safe
fluid management is crucial.

Accessories and Specifications for FENZI G10 Tank:

Various accessories are available upon request to optimize the use of the basin, including drum
supports and ramps for easy access with manual trolleys. Standard dimensions include a width
of 850 mm. and a depth of 1000 mm., optimized to fit into various work environments without
compromising usability.

The FENZI G10 is indispensable for the industrial sector, ideal not only for storing new oil but also for the safe cleaning of contaminated components, ensuring a work environment compliant with current regulations.

The FENZI G10 Storage Tank with Grille thus represents the ideal choice for those seeking a robust, safe product suitable for multiple industrial and commercial applications.
Thanks to its high-quality construction and compliance with current regulations,
it ensures reliable and durable performance over time.
