Product description:

FENZI G10 STORAGE TANK WITH GRILLE 525LT

The FENZI G10 Storage Tank with Grille 525LT is an excellent solution for safely containing and storing contaminating liquids. Made from adequately thick carbon steel, it is available with an external paint or zinc coating to ensure durability and resistance over time.
The zinc-coated grating provides a safe and non-slip surface.

The dimensions have been designed to optimize the cost/practicality ratio. The FENZI G10 tank has a reduced height of 350 mm to facilitate access to the stored liquids while still maintaining a containment capacity of 525 liters.

Usage

The FENZI Storage Tank is extremely versatile and suitable for multiple uses. In addition to being commonly used for storing new oil drums, it is also useful for cleaning components contaminated by polluting liquids. This versatility makes it essential in industrial environments where safe fluid management is crucial.

Accessories and Specifications of the FENZI G10 Tank:

Upon request, various accessories are available to optimize the use of the FENZI G10 Storage Tank,
including supports for drums and ramps to facilitate access with manual carts. The standard dimensions include a width of 850 mm and a depth of 1000 mm, optimized to fit various work environments without compromising practicality.

The FENZI G10 Tank is essential for the industrial sector, ideal for both storing new oil and safely

cleaning contaminated components, ensuring a work environment compliant with current regulations.

The FENZI G10 Storage Tank with Grille represents the perfect choice for those seeking a robust,
safe, and versatile product for various industrial and commercial applications. Thanks to its
high-quality construction and compliance with current regulations, it offers reliable and
durable performance over time.
