

AIRSTAR P460-AC Telescopic Stand

Product description:

AIRSTAR P460-AC TELESCOPIC STAND

The AIRSTAR P460-AC is a high-end Telescopic Stand designed to meet the needs of professionals.

This versatile and durable pole is perfect for situations requiring great stability and safety.

The AIRSTAR P460-AC Telescopic Stand features an advanced air cushion damping system, designed to provide a safe and comfortable user experience. This mechanism is essential to ensure smooth movements and prevent any risk of damage.

Advantages of the Air Cushion System

Increased Safety: The air cushion damping system significantly reduces the risk of accidental falls of the Telescopic Stand during adjustments. This is particularly important when working with expensive or delicate equipment.

Enhanced Durability: By absorbing shocks, the system protects both the Telescopic Stand and the mounted equipment, extending the product's lifespan.

Smooth Adjustments: The controlled and uniform movement guaranteed by the air cushions allows for precise and effortless adjustments, improving operational efficiency.

Adjustable feet, an essential feature of the AIRSTAR P460-AC Telescopic Stand, allow for stable configuration even on uneven surfaces. This adjustable element is crucial for keeping the tripod upright, regardless of the type of terrain it is placed on.

Physical Specifications AIRSTAR P460-AC Telescopic:

The AIRSTAR P460-AC is constructed from galvanized steel, offering superior robustness and durability. Available in silver and black, it easily integrates into various operational contexts.

With a total weight of 14 kg (31 lb) and a maximum load capacity of 35 kg (77 lb), it is ideal for supporting heavy equipment such as the Sirocco 700, 1000, and 1300 models. Additionally, the integrated air cushion system provides extra safety during height adjustments.

Dimensions and Capacity

The AIRSTAR P460-AC Telescopic has a maximum height of 460 cm (181 in) and a minimum height of 140 cm (55 in), making it extremely versatile for various applications. When folded, the stand measures 140 cm (55 in), facilitating transport and storage. The maximum base diameter is 150 cm (59 in), ensuring optimal stability even on uneven surfaces thanks to the included leveling leg.

Accessories and Packaging

To further enhance the user experience, the AIRSTAR P460-AC comes with a range of accessories such as sandbags to stabilize the stand in windy conditions and a triangular Lycra cover for added protection. The packaging dimensions are 150 x 18 x 18 cm, with a gross transport weight of 14.8 kg (32.6 lb).

The AIRSTAR P460-AC is a highly reliable and versatile support, suitable for a wide range of professional applications. The combination of high-quality materials, innovative design, and a series of accessories makes it an ideal choice for those seeking the best in lighting supports.
