Product description:

Truma CP plus Digital control unit 8-16.5V

Truma CP plus Digital control unit 8-16.5V: the heart of your on-board comfort

The Truma CP plus Digital Control Unit 8-16.5V is the brain behind the heating and air conditioning of your recreational vehicle. Compact and light, with dimensions of only 92x103x40 mm and a weight of 100 g, it integrates perfectly into any environment.

Powered by a voltage of between 8V and 16.5V, this control unit is extremely efficient. In operating mode, it consumes a maximum of 65 mA, while in standby mode consumption drops to only 6.5-10 mA. When completely switched off, consumption is reduced to just 3 mA, ensuring minimal impact on your vehicle's battery.

Thanks to the Truma CP plus, you can precisely regulate the room and water temperature, enjoying optimal comfort in every season. The intuitive interface will allow you to easily set your preferences and monitor the status of the system.

Technical specifications Truma CP plus Digital control unit

Voltage supply: 8 V - 16.5 V

6.5 mA - 10 mA (standby)

Standby current consumption: 3 mA (off)

Dimensions: 92 x103 x 40 mm (L x W x H)

Weight: 100g
