Product description:

DISPLAY VMD2.5

Key features DISPLAY VMD2.5: Intuitive control: The colour touchscreen control panel is easy to use and allows you to adjust the temperature and operating modes easily and intuitively. Eco Mode: Reduces energy consumption and extends compressor life. Silent Mode: Minimises noise during night operation. Programming: Allows you to set temperatures and operating modes according to a weekly programme. Operating Modes: The system offers different operating modes to meet every need: Zoning: Allows multiple units to be controlled via the NMEA 2000 network, for customised climate control of different areas of the vessel. Energy efficiency: Thanks to its variable capacity compressor and environmentally friendly refrigerant, it guarantees low energy consumption. Robustness: Built with high-quality materials to withstand marine conditions. Stylish design: The modern, intuitive design integrates perfectly with any on-board décor.
