

# ELC Tripod 4metres - PER0016H

## **Product description:**

ELC TRIPOD 4METRES - PER0016H

The ELC Tripod 4meters - PER0016H is a support designed to provide high stability and security when installing professional lighting systems. Ideal for use with LUMAPHORE® projectors, this ELC Tripod offers the perfect solution for those needing reliable lighting in challenging environments.

## **Technical Features of the ELC Tripod 4meters - PER0016H:**

Maximum height: 396 cm

Ground diameter: 154 cm

Loading height: 168 cm

Weight: 13.6 Kg

Material: Steel with electrogalvanized finish

Adjustment system: Manual telescopic mast

## **Advantages of the ELC Tripod 4meters - PER0016H:**

### **1. Robust and Durable Structure**

The ELC Tripod 4meters - PER0016H is made of steel with an electrogalvanized finish, making it highly resistant to corrosion. The use of high-strength tubes ensures long-lasting durability even in the most challenging environmental conditions.

## 2. Maximum Stability and Safety

This Tripod is designed to provide exceptional stability, thanks to the distance between the axes and the integrated safety pins. The ergonomic handles ensure a secure fix of the lighting at height, preventing accidents during installation and dismantling.

## 3. Optimal Visibility for Night Environments

The feet of the ELC Telescopic Tripod are equipped with reflective strips to enhance visibility in low-light environments. This feature is particularly useful for ensuring safety during nighttime operations or emergency situations.

## 4. Easy to Install and Suitable for Inclined Surfaces

Thanks to its telescopic structure, the installation of the ELC Tripod - PER0016H is quick and simple. Additionally, the adjustable foot allows it to be adapted to inclined surfaces, making it ideal for use on construction sites, outdoor events, and emergency situations.

Applications of the ELC Tripod - PER0016H:

Construction and railway sites

Outdoor events and sports competitions

Emergencies and rescue operations

Temporary lighting for night work

The ELC Telescopic Tripod 4meters - PER0016H is the perfect choice for those looking for a professional, robust, and versatile tripod. Designed to ensure maximum safety and practicality, it represents the ideal solution for lighting in any work context.
