## **Product description:**

WEBASTO Diesel Cooker X100 Hob

**WEBASTO Diesel Cooker X100 Hob** is an innovative cooking system for vehicles that offers independence from traditional gas. This **WEBASTO Diesel Cooker X100 Hob** uses a CERAN® hob heated directly by the combustion of diesel taken from the vehicle's tank, eliminating the need for gas bottles, adapters and freeing up valuable space and weight. An additional convenience offered by the **WEBASTO Diesel Cooker X100 Hob** is its integrated altitude function, which allows you to cook without any problems at altitudes of up to 2,500 metres.

One of the main advantages of the **WEBASTO Diesel Cooker X100 Hob** is its independence from gas. Diesel is easily available at any petrol station, making the **WEBASTO Diesel Cooker X100 Hob** extremely practical for travelling. In addition, the absence of an open flame increases safety inside the vehicle.

The **WEBASTO Diesel Cooker X100 Hob** is designed with an intelligent exhaust gas disposal system. The combustion gases are safely conveyed outside the vehicle through an exhaust pipe integrated into the cooling air pipe. This system effectively prevents the penetration of odors and moisture into the interior.

Thanks to its space-saving design, the **WEBASTO Diesel Cooker X100 Hob** fits perfectly even in motorhomes with limited interior space. The CERAN® cooking plate of the **WEBASTO Diesel Cooker X100 Hob** is not only robust and durable, but also extremely easy to clean thanks to its flat and smooth surface.

Despite its high performance, the **WEBASTO Diesel Cooker X100 Hob** is also fuel-efficient, optimizing both the use of fuel and electricity, thus contributing to more economical cost management. Choosing the **WEBASTO Diesel Cooker X100 Hob** means opting for a practical, safe and efficient cooking solution for your travels.

## **Technical characteristics:**

Dimensions of the protective housing (L x W x H) in mm: 565 x 366 x 172

Dimensions of the CERAN® heating plate (L x W x H) in mm: 466 x 316 x 50

Weight (kg): 9.5

Cooking power up to: 1.9 kW

Nominal voltage: 12 V
