**Product description:**

VITRIFRIGO C130P MILK Refrigerator 130L

VITRIFRIGO C130P MILK Refrigerator 130L is a product from Vitrifrigo's Bag in Box series, specifically designed for professional under-counter use.

This VITRIFRIGO C130P MILK Refrigerator 130L stands out for its "Milk configuration", which allows direct connection to professional coffee machines or liquid dispensers. This functionality is made possible by two openings on the top of the refrigerator, through which pipes pass connected to the two 15-liter containers supplied.

The VITRIFRIGO C130P MILK 130L Refrigerator uses a modern compressor with R600a refrigerant gas, thus ensuring high efficiency and low environmental impact. Another feature of this model is the glossy black panelable door, which gives it an elegant design and easy integration into various professional contexts.

With a capacity of 130 liters, the VITRIFRIGO C130P MILK 130L Refrigerator is a modern, high-performance solution, ideal for those looking for a product tailored to professional needs.

**Technical characteristics:**
