

HONDA EM 5500 CXS Single-Phase Petrol D-Avr Generator 5.5 kW 6.87 kVA

Product price:

2.020,00 € tax excluded

Product description:

HONDA EM5500CXS SINGLE-PHASE PETROL GENERATOR I-AVR 5.5KW 6.87KVA

Honda EM5500CXS are ideal generators as home generators, especially for sensitive technical equipment such as computers and televisions but also for hospitality facilities. They feature an electric start that can be activated remotely, from the home; these generators also respond in the event of a power outage, starting automatically. Wheels and an ergonomic handle make them easy to move around and, despite their large size, they can be easily transported anywhere.

Intelligent Energy Honda EM5500 CXS

Power is produced via Honda's unique Intelligent Automatic Voltage Regulator (i-AVR). Together with the load sensing device, it reacts immediately to changes, regardless of their magnitude.

Long autonomy Honda EM5500 CXS

With up to 8 hours duration you will forget you had a power outage. Choose the Honda EM 5500 CXS generator and you'll see how quietly it will meet all your demands, responding perfectly to any load change, even with demanding starts.

ECO-Throttle™ Honda EM5500 CXS

Honda's ECO-Throttle™ is a unique load sensing device. As the load increases, so does the RPM, but it all happens quickly and quietly, with no drop in power. And when power demand drops, so does RPM, for guaranteed savings in money and fuel.

Oil Alert™ Honda EM5500CXS

The exclusive Oil Alert™ feature is a standard safety protection that automatically shuts down the Honda EM5500 CXS generator contact if oil is below the safe level.

Smooth operation Honda EM5500CXS

Honda has created an exclusive engine support system with a durable steel frame. These rubber shock absorbers, positioned on either side of the engine and angled at 45°, significantly reduce the vibrations of the Honda EM5500CXS' already quiet engine.

Every filmmaker's best choice Honda EM5500CXS

Professional filmmakers and photographers use Honda EM5500 CXS generators for their locations because of the purity of light also guaranteed by this power source. Thanks to Honda's innovative Inverter technology, these generators offer the best results. The electricity produced is not only clean and consistent, but is also of the same quality as that of the home power grid.

Warranty Honda EM5500CXS

When you purchase a Honda EM5500CXS generator you are taking advantage of the exclusive benefit of a national or commercial warranty, as long as the service program is met.

Product features:

Phase: Single phase

Maximum power single phase (KW): 5.5

Continuous power single phase (KW): 5

Maximum power single phase (KVA): 6.87

Continuous power single phase (KVA): 6.25

Fuel: Gasoline

Frequency (Hz): 50

Voltage (V): 230

Engine: Honda GX390, 4 stroke, OHV

Engine rpm (rpm): 3000

Ignition: Transistorized

Starting system: Manual / Electric

Engine capacity (cm³): 389

Number cylinders: 1

Oil capacity (L): 1.1

Cooling: Air

Alternator: Bipolar

Bore x stroke (mm): 88 x 64

Fuel tank capacity (L): 23.5

Consumption (L/h): 2.93

Running time (h): 8

Acoustic power: 96 dB(A)

Acoustic pressure: 77 dB(A)

Length (mm): 725

Width (mm): 706

Height (mm): 719

Dry weight (Kg): 108.8

Silenced: No

Super silenced: No

Product type: Generator

ATS Switch device : No

Voltage regulator: iAVR

Engine manufacturer: Honda
