

HYUNDAI 35611 Submersible Electric Pump 750 W

Product price:

66,00 € tax excluded

Product description:

Submersible electric pump for the movement of infiltration water, irrigation of small gardens, emptying of cellars, garages and basements, drainage of small construction sites and wells of wastewater.

It can be used in fixed or mobile installations.

Equipped with integrated float that determines the start when there is a situation of excessive water level.

Specifically for fresh water.

The main body of the pump is made of shock-resistant resin resistant to the oxidation typical of pumps made of metal material, increasing its durability over time.
