

HONDA HSS 970A EW Snowplough with Wheels 6.3 kW

Product price:

3.830,00 € tax excluded

Product description:

HONDA HSS970AEW SNOWPLOUGH WITH WHEELS 6,3kW

HONDA HSS970AEW with wheels is a snowplough useful for removing up to 50 tons of snow per hour and fight against 51 cm of snow, capable of delivering a power of 6.3KW. HONDA HSS970AEW with wheels can shovel an area the size of two tennis courts with 30 cm of snow in less than ten minutes.

HONDA HSS970AEW with wheels snowplow are big, red and powerful, but they're also packed with smart features.

All HONDA HSS970AEW snowplough feature an electronically controlled exhaust chimney to make it easy to eject snow in any desired direction, ideally as far away as possible.

Throwing snow a distance of 16 meters requires a lot of effort and it would take many people equipped with shovels to do all the work; again, the HONDA HSS970AEW snowplough with GX270 4-stroke engine will do all the work in no time. This engine is as reliable as it is powerful and is designed to produce low noise, vibration and emissions, while also ensuring low fuel consumption. And it has no problems with cold starting either. Thus, these snowplow are the quietest and most comfortable to use.

Melting ice also brings problems. In this case, it is the leaks and standing water on the roof that can damage the property. To avoid problems for buildings with flat roofs, those who own a Honda snowplow take it to the roof of their home, where once again these snowplow shine in grip and maneuverability.

This snowplough has a unique hour meter function that tells you when the next service is due and when routine maintenance is due.

TECHNICAL FEATURES HONDA HSS970AEW with wheels:

Net power: 6.3 kW
Fuel: Gasoline
Engine: Honda GX 270
Starting system (AMP): Manual recoil starter
Working width: 710 mm
Working height: 510 mm
Maximum capacity: 50 t/h
Maximum jet distance: 16 m
Jet direction adjustment: Manual
Transmission: Hydrostatic
Traction type: Wheels
Consumption: 2.27 Lt/h
Acoustic power: 102 dB(A)
Length: 1465 mm
Width: 725 mm
Height: 1150 mm
Weight: 100 Kg
Speed (km/h): 0-3.96
