

DOMETIC FIXING KIT TCX-FK

Product price:

69,00 € tax excluded

Product description:

This kit is for securing TC-14FL, TC-21FL and TC-35FL portable coolers in vehicles. It comes with foot mounting brace bars, side wall nut inserts and straps to help keep your cooler secure when on the move.

Secure for transport

The ultimate accessory for securing coolers in vehicles to avoid them moving around when travelling.

Keep it secure - Wherever you go!

Dometic have you covered with the Dometic CoolPro TC Universal Fixing Kit in-vehicle installation solution. The universal fixing kit is an accessory you won't want to live without. If you are travelling on bumpy roads, having your cooler secured with a fixing kit is advisable, as it helps the fridge move with the suspension of the vehicle. This kit is for securing TC-14FL, TC-21FL and TC-35FL portable coolers in vehicles. It comes with foot mounting brace bars, side wall nut inserts and straps to help keep your cooler secure when on the move.
