HONDA UMK 435 UE PETROL BRUSHCUTTER WITH HANDLEBAR

The HONDA UMK 435 UE brushcutter comes with a handlebar grip and a practical harness. The HONDA UMK 435 UE is designed to be practical, powerful, and reliable, ensuring constant power and torque even under demanding conditions. Equipped with the GX35T 4-stroke petrol engine, the HONDA UMK 435 UE brushcutter can handle any type of task expected. No undergrowth is too dense to remain untouched. With the HONDA UMK 435 UE 4-stroke garden brushcutter, extremely robust and reliable, you can venture where no other brushcutter can reach. This brushcutter is equipped with a semi-automatic system that ensures continuous line feed. When the cutting line begins to wear down, performance decreases; now, when this happens, simply tap the head on the ground and more line will be automatically released.

A quick overview of Honda products

From the very beginning, the HONDA UMK 435 UE brushcutter proves extremely easy to handle. It can tackle any type of job, no matter how long or demanding, and with the choice of the powerful GX25T 4-stroke petrol engine, it is ready for any challenge.

Handlebar grip

These brushcutters come standard with a comfortable harness, a nylon tap-and-go head, and a heavy-duty three-tooth blade. The adjustable handlebar ensures a better and safer grip while cutting unwanted vegetation.

Loop handle

Brushcutters with a loop handle come standard with a comfortable harness, a nylon tap-and-go head, and a heavy-duty 3-tooth blade. They are perfectly balanced and ensure precise control during pruning or edging.

Curved shaft brushcutter

This brushcutter is equipped with a nylon tap-and-go head. Its extremely light weight and

balanced proportions make it easy to control while working, making it much simpler to reach even the most difficult spots.
