

TELECO TELAIR ACTIVSAT 85 Automatic portable satellite antenna LNB single

Product price:

990,00 € tax excluded

Product description:

TELECO TELAIR ACTIVSAT85

TELECO TELAIR ACTIVSAT85 is a fully automatic portable satellite antenna. With TELECO TELAIR ACTIVSAT85 you can park your caravan or motorhome under the shade of trees and easily place the automatic ACTIVSAT system on the adjacent lawn.

TELECO TELAIR ACTIVSAT85 simply open the tripod, mount the motor unit on its top, insert the satellite antenna and connect the cable to the vehicle's external Activsat socket. The installation is really intuitive, quick and simple and does not require additional tools.

The antenna will point the satellite in a few seconds, you can adjust TELECO ACTIVSAT85 either via Bluetooth using your smartphone or by simply pressing a button in the control unit inside the caravan.

The TELECO TELAIR ACTIVSAT85 antenna gives you the possibility to enter the quick search mode, in this mode the dish limits the search to only 120° and, besides being much faster, it saves 70% of battery power.

In order to use the Quick Search mode, you must first point the dish in the SOUTH direction. If you are unable to find the SOUTH direction, you can disable Quick Search and the System will automatically perform a 360° Total Search.

Each time ACTIVSAT points at a satellite, this position is saved in the system memory and allows you to further reduce the time of the next search.

If someone cuts the cable, a very loud beep is emitted and you can automatically turn on an external light.

TELECO TELAIR ACTIVSAT85 is closely linked to its indoor control unit by the Serial Number.

All Serial Numbers are recorded in a TELECO Data Base and if someone steals the outdoor unit, they will not be able to have any control unit as a spare part without providing the Serial Number of the outdoor unit and their Name, making the unit almost unusable.

TECHNICAL CHARACTERISTICS TELECO TELAIR ACTIVSAT85 satellite antenna

16 stored satellites

High definition blue OLED graphic display
