**Product description:**

## **TELECO TELAIR TeleplusX2-110VU Terrestrial Digital and Analog Antenna**

The TELECO TELAIR TeleplusX2-110VU is an advanced solution in the TELECO TELAIR antenna lineup, designed to ensure optimal reception of digital and analog signals. Ideal for recreational vehicles, this antenna combines state-of-the-art technology with a robust and versatile structure.

Thanks to the innovative polarity orientation mechanism, the TELECO TELAIR TeleplusX2-110VU can capture signals transmitted in horizontal and vertical polarity, easily adapting to the most common broadcasts in Italy, England, and other countries. This Terrestrial Digital and Analog Antenna offers a maximum gain of 38 dB on UHF channels and 22 dB on VHF channels, delivering excellent performance even in areas with weaker signals, making it one of the top solutions in the TeleplusX2-110VU range.

Equipped with an adjustable low-noise amplifier, the TELECO TELAIR TeleplusX2-110VU operates with a 12Vdc or 24Vdc power supply, ensuring compatibility with various electrical systems. Additionally, the integrated LTE filter eliminates interference caused by 4G/5G devices, guaranteeing clear and stable viewing.

Main Features of the TELECO TELAIR TeleplusX2-110VU:

High-performance Terrestrial Digital and Analog Antenna.

Amplified gain: 38 dB (UHF) and 22 dB (VHF).

Polarity orientation mechanism for horizontal and vertical signals.

LTE filter to reduce interference from smartphones and mobile networks.

110 cm long pole, secure locking system, and wedge spacer for shaped roofs.

The TELECO TELAIR TeleplusX2-110VU Terrestrial Antenna is designed for those seeking an easy-to-install, reliable antenna suitable for any situation. Thanks to its advanced technology, it delivers impeccable reception of digital and analog signals, making it the perfect choice for ensuring a high-quality TV experience while traveling or at home.

Choose the TeleplusX2-110VU for high-level performance and the quality guarantee of TELECO TELAIR.
